The **application fee** is for all students applying for admission. This amount defrays costs of entrance interviews and ESL assessments etc. The **registration fee** is for school resource development and is payable only once. The **building and development fee** is used for maintaining and upgrading facilities and is charged annually.

The **membership fee** is a charge for the school association running the DSK/ES. It is charged annually.

The Application fee must be submitted at the time of submitting the application form. The registration fee is due 15 days after registration at the latest. A place at the school can only be guaranteed if the registration fee has been paid. The Application fee and the Registration fee are not refundable.

Deutsche Schule Kobe/ European School has two payment plans available. DSK/ ES prefers one payment per year but an option for two bills per year may be selected. Tuition fees mentioned above are calculated on the two bills plan. Parents who pay annual tuition before July 15th (or directly after registration when enrolling during the school year) are entitled to a 20,000 Yen discount on school fees. The bill(s) are due 15 days before the commencement of each semester (July 15 and January 15 respectively). A penalty of 7% will be strictly applied for payments received 15 days after the due date of the billing invoice. Students whose tuition is outstanding 30 days after the beginning of the year may be suspended from classes. The school reserves the right to withhold any report cards, transcripts, or diplomas if there are unpaid balances.

The application, registration, building and development, insurance and membership fees are charged to all students entering the school regardless of whether they enroll midway during the school year or withdraw early.

Children who register but fail to attend, or children who leave within a six month payment period are not entitled to a refund. Students who register during the school year are charged tuition pro-rated at the time of admission on a basis of which quarter they enter. **After entering school the existing contract will be automatically extended, if parents do not resign by written notice at least 3 months prior to leaving the school.**

Under special circumstances reduction of school fees may be granted. Applications must be sent in writing, stating all details, to the Board of Trustees.

The school trips are organized annually for students from Grade 3 to Grade 6. The total cost of these trips varies depending on destination and duration, however, these trips should not exceed 50,000 and we must ask you to make allowance for these outings. All students are expected to participate as it is a very important experience in their personal development. The sum of 50,000 yen becomes payable at the same time as the tuition fees. Necessary adjustments will be made at the time of the excursion.

Fees will remain constant during any given school year and may only be changed with the approval of the Board of Trustees at the end of the school year. Same school fees apply in the European section and in the German section of the school.

The Board of Trustees has final say in all matters pertaining to school fees.
